

**ORAL QUESTION—KEVIN O'REILLY, MLA FRAME LAKE**

**QUESTION 143-18(2): IMPACTS OF GNWT JOB LOSSES**

**June 1, 2016**

**MR. O'REILLY:** Thank you, Mr. Speaker. I just had one follow-up that I wanted to ask the Minister of Finance. Part of the issue is that we do a lot of work behind the scenes as regular MLAs and with the Ministers on the departmental budgets through the business plans. I agreed with the Minister, that a lot of the information that I asked about earlier had been provided to this Member and other regular MLAs. But I'm hoping that he could table the information about the multiplier for impacts into the private sector, the potential lost revenues to the Government, and where the job cuts are actually going to take place.

Can the Minister table that information in the House so that the public can have it as well?  
Thank you, Mr. Speaker.

**MR. SPEAKER:** Minister of Finance.

**MR. ROBERT MCLEOD:** Thank you, Mr. Speaker. Mr. Speaker, I'll follow-up and gather the information and I will see where we're able to table that. But I will follow-up. Thank you.
